Fire Collection

Bio Tower

BIO TOWER

Outdoor or Indoor

Representative lighting – To make special moments

Modern and elegant elements identify the bio fireplaces. The high portable BIO TOWER looks fantastic in indoor or outdoor, proposed in different solutions to create a contemporary atmosphere.

The BIO TOWER from **Italian design** is the new item, simple and straightforward to **be installed everywhere!** Great for hotel receptions, prestigious villas. Ideal around gardens and swimming pool areas. Suitable for events, public places as well as restaurants and wellness-spa.

BIO TOWER

Bio ethanol fuel is an **eco-friendly energy** source. It is produced by re-using plant wastes.

Bioethanol burns **Co²-neutral (no exhaust fumes released)**, scentless and with almost no residues. Hours of carefree enjoyment before the fire **are guarantee.**
